

BATH ROOM

.... AND

HOUSEHOLD SPECIALTIES

OF THE HIGHEST QUALITY AND FINISH.

ARTISTIC AND USEFUL.

NEWARK, N. J., U. S. A.

== No. 19 ==

To the Trade:

In presenting this Catalogue, showing the most complete assortment of bath room and household specialties, we wish to again emphasize certain points with reference to our goods.

1st. Material. Brass, heavily plated with nickel, warranted not to scale or peel off, and to maintain its color.

2d. Style. Our patterns are purposely plain; this adds to their richness and also avoids possible unsanitary conditions, which are invited by too much filigree or fancy work.

3d. Workmanship. Our force are experts in this line of work. We have always maintained a strict supervision so that each piece is turned out as nearly perfect as these goods will permit. Return any not so found.

4th. Finish. The most suitable finish for this class of goods is in nickel plate, since it tarnishes but slowly and is easily cleaned and brightened. A few exceptions to this rule will be found on pages 29, 30, 37 and 38. These are of polished brass; however, when preferred, they will be furnished nickel plated. If any of our other pieces are wanted in polished brass orders to that effect will be carefully followed.

5th. Trade-Mark. We have adopted the following:

C.M.®

We ask careful comparison of our goods with those of any other make, both in weight, construction, and fineness of finish.

6th. Profit to Dealers. This line yields an excellent profit and, in proportion to cost, the show made entitles them to a prominent position.

Electrotypes will be loaned to dealers who may desire to illustrate our goods.

We wish to tender our sincere thanks for past favors and ask a continuance of the pleasant business relations heretofore existing.

Truly yours,

SEARLS MANUFACTURING CO.

7 $\frac{1}{4}$ inches high.

No. 3768.....\$1.50

10 inches high.

No. 3650.....\$3.50

Regular finish for Candlesticks is in Polished Brass, but they will be sent Nickel Plated when so ordered, and at the same prices.

FOR the convenience of dealers and to enable them to show these bath room and household articles to the best advantage we will furnish a sample line of the pieces handsomely mounted on a velveteen or cloth covered board with oak mouldings, and charging ONLY for the samples and NOT FOR THE MOUNTING.

This line of samples would not necessarily include all of the 210 patterns shown, but should be for NOT LESS than one-third of the number.

To properly mount these would require a board of say 4 feet high by 6 feet wide, or, if different in shape it should measure about 24 square feet.

The selection of pieces to be shown may be made by the purchaser, or we will act if requested.

It will be found most desirable to not remove any of the samples from the board, but a separate stock of the goods should be carried and all sales delivered therefrom.

We have exceptional facilities for the manufacture of high grade work in brass and nickel, and shall be pleased to name prices for large lots of any kind of specialties in this line.
